I'm expanding the NCEA distribution of this email. Following the glyphosate meeting yesterday Bob said that he would like NCEA tox21 people to participate in this. I don't know anything more about it though.

Hi Everyone,

Bob Kavlock and Wendy Cleland-Hamnett of OCSPP have been invited to participate in a discussion and evaluation of Australia's proposed approach to the assessment of industrial chemicals. As you see in the letter, this is a fairly important and potentially precedence-setting activity and on a fast timeline. Bob would like you, or someone you designate, to participate. The first step will be a webinar that Australia is trying to organize. The date has not been set, but it is possible that will be around 3PM Eastern, on one of the days December 1-3.

Would you please let us know if you can participate or if you are able to designate someone from your group who can?

Thanks,

Tina

Tina

This is something we should do despite the rather short timing. Plus the days they picked are not optimal for us (maybe that is flexible). Can you work with Wendy who is also on the invite to get an EPA group together? Maureen can help with the organization and logistics.

Bob

Dear Sir/Madam,

I am writing to you with an invitation from Dr Brian Richards, Director, NICNAS, to contribute to an international tele/videoconference regarding NICNAS reforms, in early November.

Dr Richards seeks your comments on a new Australian approach to the assessment of industrial chemicals. In particular, we seek your views on draft criteria used to categorise chemicals in order to identify those that require pre-market notification and assessment.

Should you have any questions regarding the attached request, don't hesitate to contact through the emails provided.

Kind regards,

Nicola Hall
